AUTUMN IN JAPAN

Exhibition by Mafalda Tenente

EXHIBITION

Between October 28 and November 25 artist Mafalda Tenente will take us on a “travel” through Japan of past and present in the Autumn season. Mafalda is an ink painting artist regularly exhibiting in Japan and Switzerland, with a unique focus on books as art objects in her practice. To celebrate the season at Japanisch Wohnen she has planned a special display of her ink works and artist books. The connection between ink, nature and literary tradition in Japan is a centuries-old one. On the October 28 vernissage she will explore this connection with us - in an artist talk including excerpts from her latest book “Autumn in Japan” and an interactive demonstration of how she practices ink painting while traveling or exploring a location in the city.

Classic ink painting can be practiced anywhere, anytime. Mafalda hosts a short introduction session to ink painting technique where you can experience painting a seasonal theme using only brush pens and paper. These are the same materials used on her travel journals. No prior experience, no materials required. There are two times to choose from, each session lasts approximately 1hr, in a small group of max. 8 participants each

Workshop: 28. October 16:30 / 17:45
